

The Mobile World Congress 2018 is open. Have a look at some photos to feel the atmosphere of the Barcelona IT super event.

108,000+ attendees | 2300+ exhibitors | 208 countries represented

At MWC you can see and feel the future of our world through virtual reality and self-driving cars, with the Internet of Things and mobile gadgets deeply integrated into the human life.

New technologies lead us towards a better future: here we see uniquely complex software development technologies and hardware systems gathered together. We're here to find inspiration, share our knowledge and transform new challenging ideas into reality.
