

Webinar September 27, 2018

Want your business to grow and prosper? Let Artificial Intelligence fatten your profits.

Join us on **27th September at 2 PM BST (9 AM EDT) for a free livestream webinar** with James Watkins, a business development expert at Magora UK, who was invited by the internet agency to discuss the smart bots invasion into all business spheres.

[Register](#)

Join the webinar to find out:

- What smart bots are and how they can become a new source of income;
- Which types of bots are most successful in your industry and how to increase efficiency with Artificial Intelligence;
- How to prepare yourself for the implementation of innovative technologies and make a bot your faithful ally;

This webinar will help you evaluate new technologies and generate a business plan for your own smart bot development and integration. Don't forget to prepare your questions for an open Q&A session.

We always keep an eye on the latest trends and technologies to provide our partners and clients with valuable insights, lifehacks and best practice.

Don't miss your chance to make your business smart - register here to the AppBoss webinar to get a tool to overcome competitors and speed up your business growth.
